ENGINEERING EXCELLENCE.

Paalsun Engineers India Pvt. Ltd., is an ISO 9001:2015 certified company and the most promising manufacturer and solutions provider firm in INDIA, specialized in manufacturing customized products from Filtration Skid to Chemical Storage Tanks for WTP, STP, ETP and other industrial segments. You can rely on Paalsun's product quality and proven technology.

Established in the year 2007, Paalsun Engineers engaged in manufacturing of Water Treatment Equipment such as RO Plants of various capacities, DM Plants, Clarifiers, Clariflocculators, and Agitators to fit the needs of industries. We provide a complete turnkey solutions from Concept to Commissioning, in raw Water & Effluent Treatment Systems. Our strength lies in knowledge base and experience garnered by executing numerous projects over 15 years, across industries like Sugar, Pharma, Food & Beverage, Leather, Textile, and Chemical, etc.

We offer advanced water treatment solutions to optimise the usage of water resources, enabling recycle and reuse of water to make it sustainable and profitable for everyone. Our hands-on experience spanning close to two decades helps us understand and solve for unique demands of clients in a better way, resulting in the most optimal solutions.

The promoters of Paalsun Engineers are having a strong track record of industry experience with proven leadership, backed by experienced and professional engineers having a long stint in the water treatment industry.

Our main objective is to satisfy customers by serving them with the highest quality, cost saved service complying with the local & worldwide standards. While achieving this goal, being respectful and sensitive to environment and taking care of our workers health and their occupational safety.

The team at Paalsun Engineers brings together 20 years of experience with water filtration and recycling expertise to provide the best closed-loop, zero discharge systems designed specifically for your size shop.

Our products are reliable and durable service life at a competitive cost and feature comprehensive benefits of robust design, optimum functionality, long service life and non-corrosive body. The standard of our products are always kept high which helps us in gaining the trust of all our clients.

At our state-of-the-art facilities located in Gummudipoondi Industrial Hub, we can cater all sorts of challenges no matter how complex your needs are.

We manufacture various ranges of products for water treatment systems & other industrial application systems and are listed below:

WATER TREATMENT EQUIPMENT

- ▶ Reverse Osmosis Skid
- ▶ Ultra Filtration Skid
- ▶ Pressure Sand Filters
- ▶ Dual Media Filters
- ▶ Water Softeners
- ▶ Mixed Bed
- ▶ Activated Carbon Filter
- ▶ Heat Exchanger Skid
- ▶ Dosing Skid
- ▶ Degasser Tower
- ▶ DSM Screen
- ▶ Bar Screen
- ▶ Screw Conveyor
- ▶ Clarifier / Clarifloculator
- ▶ Agitators / Flash Mixers

MICRON FILTERS

- ▶ Water Treatment - SS / Polypropylene

STORAGE TANK

- ▶ Hot Water Storage Tank
- ▶ Stainless Steel Measuring Tank
- ▶ Stainless Steel Tank
- ▶ Stainless Steel Dosing Tank
- ▶ Chemical Preparation Tank
- ▶ MSFRL / MSRL / MS Storage Tank (range 250 litre to 50000 litre)

MINERAL WATER PLANT

- ▶ Water Demineralization Plant
- ▶ Stainless Steel Measuring Tank

WINDMILL METAL FABRICATION

- ▶ Blade Transport Frame

Our strength lies in the values that we uphold. At Paalsun Engineers, we work towards inculcating and nurturing them at every pedestal of success. It helps us to convert our values into actions, and built on those values we are committed to.

We have been carried over a range of systems in the production house that inc:

- Water Treatment
- Municipal Waste Water
- Industrial Waste Water
- Water Recycling
- Industrial & Process Water
- Desalination Sea & Brackish Water

INFRASTRUCTURE

INDUSTRY SEGMENTS

RO Membrane

Process Piping - Food Industry

Our factory is spread over 45,000 sq. ft. area with a massive production area, assembly hall, fabrication shop, paint shop, quality testing room and separate warehouse, which leads high-end production and delivering superior quality products. We continue to expand our capabilities and services to meet the emerging needs our clients.

The company has been conferred with ISO 9001:2015, for it's Quality Management System at par with international standards, and we have a well audited quality system, to ensure quality checks on continuous basis at every stage of production.

Industry Segments

A Strategic Business Partner for your organization.

We believe in the values that we uphold. It helps us to convert our values into actions, and built on those values we are committed to. Our products are widely used in the industry segments like:

- Pharmaceutical
- Paper Mill
- Drinking Water
- Sugar
- Chemical
- Textile
- Power Plant
- Food & Beverages
- Thermal Power Plant
- Oil & Gas
- Water Recycling Plant
- Cement
